Compound, Leak Detection Fluid

May be used to comply with OSHA’s Hazard Communication Standard, 29 CFR 1910, 1200. Standard must be consulted for specific requirements.

MATERIAL SAFETY DATA SHEET

MM Mfg., 101 The Embarc., # 128, San Fran. CA 94105  (415) 391-3952, marvy@savvysoap.com

Section 1: PRODUCT IDENTIFICATION

Product Name: Compound, Leak Detection Fluid (proprietary)

Manufacturer’s Name: MM Manufacturing  
(415) 391-3952

EMERGENCY TEL.: CHEMTREC’S 24 HOUR EMERGENCY – 800-424-9300

Date Prepared: August 15, 1992  Signature of Preparer (optional): __________________________

Section II – Hazardous Ingredients / Identity Information

Section III – Physical and Chemical Characteristics

Type Product: Soap testing concentrate compound for detecting gas or air leaks when diluted with water.

Boiling Point: (212°F) initial

Appearance & Odor: Clear, viscous colorless liquid, mild characteristic odor

Vapor Pressure & Density: 31 & 1.05

Sp. Gravity: 1.05

% Volatile by Vol.: 70%

Evaporating Rate (H2O): >1

Ph: 7.0 – 8.0

How to detect this substance: N/A

Note: In accordance with 29 CFR 1910.1200, we have assumed that the mixture presents the same health hazards as the individual components when they are present at greater than 1% concentration. Listed on the next page are the health hazards for all the materials present over 1% concentration and that undiluted have health hazards associated with them. Please note that not all of the components of the components of the mixture have health hazards associated with them. In the event of a medical emergency, the identity of all the components will be divulged to a qualified health professional. The following effects were concluded as a result of laboratory animal testing and/or industrial hygienic history of one or more of the individual components. The relevancy to the mixture as a whole or to humans is unknown. Industrial exposure may cause similar effects.
### Section IV – Fire and Explosion Hazard Data

- **Flash Point:** None to 200°F
- **Auto Ignition Temperature:** Not available
- **Flammable Limits in Air:** N/A
- **Fire Extinguishing Materials:** Use media proper to primary cause of fire.

### Section V – Reactivity Data

- **Stability:** Stable
- **Hazardous Polymerization:** Will not occur.
- **Incompatibility:** Concentrated acids, concentrated oxides
- **Materials to Avoid:** Incompatible
- **Condition to Avoid:** Prolonged storage in unventilated areas in hot temperatures

### Section VI – Health Hazard Data

**Symptoms of overexposure for each potential route of exposure are as follows:**

- **Contact with eyes:** Can be irritating to skin, mucous membranes and moderately to severely irritating to eyes. Rinse with cool running water.
- **Contact with skin:** Can be mildly irritating and drying to skin. Use barrier cream, skin lotion or wear gloves.
- **Carcinogen (NTP & IARC):** None
- **Absorbed through skin:** Product is practically non-toxic.
- **Swallowed:** Do not induce vomiting, give large amounts of milk or water, seek medical attention immediately.

### Section VII – Control Measures

There do not appear to be special procedures needed for eye, skin, respiratory, ventilation, or protective clothing other than regular safety methods. Of course, eating, drinking, or smoking during use of substance is not recommended.

### Section VIII – Spill, Leak and Disposal Procedures

**Spill response:** Use sand, earth, or a suitable absorbent material to soak up bulk of material. Product is biodegradable. Product may be flushed and rinsed with large amounts of water if local ordinances permit.

*N/A – Not Applicable*

This data is offered in good faith and reasonable care has been exercised in the compilation of readily available research data done on the individual components of this product. The relevancy to the compound, mixture, or solution as whole or to humans is unknown to us. Therefore, no warranty is extended, whether express or implied, no representation is hereby made and no assumption of responsibility and/or liability as to the accuracy of this information for any purchaser's and/or storage, handling, use, or disposal. The recommended industrial hygiene and safe handling procedures are believed to be generally applicable. Judgments as to the suitability of information herein contained for the purchaser's and/or user's purposes are necessarily their responsibility. Each purchaser and/or user should review these recommendations in the specific context of the intended use and determined whether they are appropriate.
